Healthy Congregations

The *Healthy Congregations* workshop helps participants proactively address conflict within their church. Rather than allow negative forces to set the agenda in your congregation, you are invited to join us for this one-day event that helps participants respond to the threat of anxiety in ways that prevent or minimize destructive conflict. Learn how to maintain a non-anxious presence, expand your insight into how churches function as emotional systems, and help your congregation stay focused on its true mission. This workshop is designed for pastors, judicatory leaders, and other church leaders, so that all may work together to transform conflict in a healthy manner.
